Mid-level Angular Developer with solid experience in Full-Stack web development, specializing in Angular-driven applications. Extensive hands-on involvement in developing and optimizing web solutions for over two years.

EXPERIENCE

Giktek, Nairobi, Kenya — *Front-End Software Engineer*

MARCH 2022 - PRESENT - FULL-TIME

Spearheaded the development of a comprehensive affiliate programme using Angular achieving a 27% increase and admin dashboards, enhancing operational efficiency and data visualization.

Developed a customer self-onboarding system for banks enabling remote account creation in both an individual and business capacity, resulting in a 30% increase in customer acquisition.

Implemented e-biller, an online billing platform for entities such as the Kenya Power and Lighting Company and G4S, enhancing bill payment processing and reconciliation within designated timelines, achieving a 32% increase in operational efficiency.

Developed an online account setup automation application enabling customers to order services like debit cards, cheques and manage standing orders and account updates remotely, reducing the need for in-branch visits and increasing process efficiency by approximately 40%.

Unidentified Landed Object, LA, California — *Front-End Developer*

AUGUST 2023 - NOVEMBER 2023 - CONTRACT

Led a website revamp focused on enhancing user interface features, which improved user engagement and increased session duration by 22%.
